

# LA LIGUE D'ÉGALITÉ

Impact Report | Season 3 October 2023 - January 2024 Yaoundé, Cameroon

# INTRODUCTION

La Ligue D'Égalité has grown from a concept to community changing reality.

The third season finishes with deeper impact and pathways opening for young girls and women in Cameroon through the power of sport.

Petrichor, LaLiga and FUNDACION LaLiga are committed to developing this initiative responsibly for a sustainable future. With added value programs, female coaching education and added age groups the focus on equality remains at the center of this project.

# **PROJECT GOALS**

Create safe, fun and productive spaces for girls and women in sport. Teaching on equality, confidence and leadership are pillars to this initiative.

### **EQUALITY:**

A first of its kind initiative built for girls and women.

### **CONFIDENCE:**

The girls are growing into the leaders that they are both on and off the field.

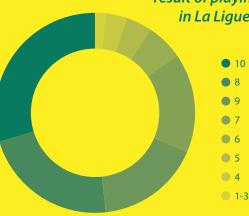

### **LEADERSHIP:**

From team captains to community impact managers, this project is providing outlets for the leaders of the future.

# QUALITATIVE + QUANTITATIVE DATA

Rate your growth in confidence from 1-10 as a result of playing football in La Ligue D'Egalité.

Clubs Involved

Biggest development from last year: New category of U17 so that the girls that age out of the U15 level can play another two years.

# 27 FEMALE COACHES

Completed the 'Values to Win' course taught by Pablo Malave Munoz with Fundacion Laliga.

### **INTERVIEWS:**

"Hi, I'm Pekure Balkissou and I am 16 years old. I live in Mfounban, Yaoundé. I started playing football when I was 6 and I joined Petrichor in 2023. I really enjoy the way the staff trains us because it helps us to be punctual, respectful, and conscious. I dream of playing in a big club and becoming one of the best in the world. If I could give a message to a young girl like me, I would tell them to keep up the momentum, be patient, and listen to her elders."

"Hi, I'm Mboadikale Marceline Stacey and I am 14 years old. I live in Littoral. I started playing football when I was 11 and I joined Petrichor in 2023. I really enjoy the conquest between teammates and complicity on the pitch. I dream of being a great professional footballer. If I could give a message to a young girl like me, I would tell them to never give up when the going gets tough and to persevere in life."

FUNDACIÓN ALIGA

FUNDACIÓN TOORE

dream is to become a professional player. If I could give a message to a young girl like me, I would tell them to go to the limit and that this project is important because it creates impact. "

"Hi, I'm Ndebi Florine. I am 14 years

old and I live in Yaoundé. I started

playing football when I was 8 and I

joined Petrichor in 2020. I really

enjoy how good our team is, that

the coaches know what they want

and give you the maximum. My

Bebeto attended the last two coaching courses through this project. She showed a natural ability to coach, easy connection with the girls and professionalism. Petrichor gave her an internship and after proving her skills she is now a full time Petrichor coach. This is one success story of helping provide pathways, vocational and professional opportunities.

"Petrichor helps me improve my knowledge and practice of coaching. Petrichor also helps improve in discipline and focus with the players as they grow in football and leadership skills."

# OFF FIELD IMPACT

#### TRANSPORTATION:

The taxi and bus services that our teams use each weekend to get to and from games have grown. The guaranteed clients each weekend has helped transportation companies invest back into and grow their businesses. This is creating better services, safety and branding.

### FOOD:

Local food vendors have grown during matchday at the field including sandwich shops, snacks and beverages. With up to 400 players, families, transport and fans these businesses are able to thrive as a part of this project.

### **FIELDS:**

Community infrastructure and field improvements are helping other clubs and programming in the communities we work with. Two pitch upgrades and ongoing maintenance provided during this league.

### **PROJECT VENDORS:**

We all rise together and this includes vendors for jerseys, equipment, signage and media. This project has helped develop the sports management sector in Yaounde to new heights.

Our jersey provider Mabona recently moved into a larger production facility in large part because of La Ligue D'Égalité. He has grown his business to larger clients and helped provide economic growth.

# **PARTNERS**

We had the privilege of partnering with Source du Pays S.A (Supermont) who provided all the drinks for our girls during the League. This made a huge difference and kept the girls and coaches hydrated! As a part of our sustainability plan, having Cameroonian sponsors is so important for us.

Want to be a part of this project? We are looking for partners that can join this unique partnership with LaLiga to provide equal opportunities for more players!

## CONCLUSION

The reputation of professionalism, equality and impact of La Ligue D'Égalité is creating a high demand from many teams around Cameroon. This project provides a place for girls to express themselves, grow as leaders and footballers.

This partnership has and will continue to greatly impact youth football in Cameroon. It is growing a desire and instilling value in girls to express their talents and play the beautiful game. It is motivating women coaches around the country to pay attention to and elevate girls football. It is also equipping and allowing them to have an outlet for their new teams to play. Petrichor can say with confidence that after the third version of this project has finished, girls youth football has started to take root in Cameroon. Cameroon now has more organized girls football, better coaches, a functioning league and more talented girl athletes than ever before. This partnership is changing the face of girls youth football in Cameroon and beyond.
